### High-comfort, chemical resistant glove for a wide range of applications.

- The Sol-Vex nitrile glove is designed to deliver optimal results in wet or dry work environments where chemical resistance is crucial. Fully reusable, with an unequalled abrasion resistance, provides superb comfort for the wearer.
- This glove has no inner cotton flocking, reducing risk of lint contamination and making it ideal for production areas sensitive to the introduction of external impurities.
- The reversed lozenge finish further enhances levels of grip.
- The sandpatch finish gives the glove a smooth surface that decreases indirect costs thanks to fewer rejects of fragile parts.

### Primary industries

- Automotive and transportation
- Machinery and equipment
- Building and construction
- Defence and first responder
- Agriculture and viticulture
- Metal fabrication
- Oil, gas and chemical
- Recycling
- Mining

### Ideal applications

- Chemical processing and preparation
- Refining – oil and petrol
- Metal fabrication
- Agrochemicals
- Printing

Risk Category III

Testing compliant to AS/NZS 2161  
Anti-static according to EN1149

Use product only as specified. Products that provide 'cut resistance', 'cut protection', 'puncture resistance', 'puncture protection', 'abrasion resistance' or 'abrasion protection' do not completely prevent or eliminate the potential for cuts, punctures or abrasions, and are not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment. Products that provide protection against sparks or flames are not 'fire-proof' and do not completely prevent or eliminate the potential for burns or associated injuries. Users are encouraged to always use caution and care when handling sharp or abrasive materials, chemicals, or other hazardous or dangerous substances. Any information or data provided is offered solely as a possible suggestion for use in making your own decisions or product choices. It is the responsibility of a product user to assess the level of risk and to determine the protective equipment required or appropriate for the user's particular purpose. Nothing in this brochure should be construed as a representation or warranty of merchantability or that any glove is fit for a particular purpose.
